<b>Occupational Schools</b> .....	87
<b>Appendix (Index of Schools)</b> .....	157

## Office of Higher Education

The Office of Higher Education was created in 2011 as part of a reorganization of Connecticut's higher education system. Its major responsibilities, as outlined in the Connecticut General Statutes, are to ensure that postsecondary schools and independent colleges meet standards of quality for the benefit of students and taxpayers, and to administer public financial aid scholarships.

Led by an Executive Director, the Office of Higher Education employs 21 people and distributes nearly \$35 million in financial aid to Connecticut students and colleges. The agency is responsible for administration and oversight of a number of state and federally run programs.

Programs include:

- Oversight over 20 institutions of higher learning within the not-for-profit and for-profit sectors;
- Approval of out-of-state colleges and universities;
- Authorization of 95 Connecticut private occupational and hospital-based schools;
- Administration of the Roberta B. Willis Scholarship Program;
- Administration of the Minority Advancement Program (MAP);
- Administration of the Minority Teacher Incentive Grant Program and the Minority Teacher Loan Forgiveness Program;
- Operation of the Alternative Route to Certification (ARC) Program;
- Staffing of the Connecticut Commission on Community Service (Serve Connecticut)
- Service as the State Approving Agency for Veterans; and
- Administration of the John R. Justice Grant Program.

The Office of Higher Education recently adopted the Genius of Connecticut as its new symbol. Her name "Genius" represents our state's spirit of innovation.

## DEVELOPING LAWS AND POLICIES FOR CONNECTICUT'S HIGHER EDUCATION SYSTEM

The Legislature's Higher Education and Employment Advance Committee has oversight over all laws and state policy decisions linked to Connecticut's higher education system. This includes all matters relating to the Board of Regents for Higher Education, the Office of Higher Education, public and independent institutions of higher learning, private occupational schools, postsecondary education programs, job training institutions and programs, apprenticeship training programs and any adult job training program offered to the public by any state agency or private organization funded in part of whole by the state.

## HIGHER EDUCATION AND EMPLOYMENT ADVANCEMENT LEGISLATIVE COMMITTEE LEADERSHIP

Senator Will Haskell, *Senate Chair*  
 Representative Gregory Haddad, *House Chair*  
 Senator Mae Flexer, *Senate Vice-Chair*  
 Representative Gary Turco, *House Vice-Chair*  
 Senator Tony Hwang, *Senate Ranking Member*  
 Representative Carol Hall, *House Ranking Member*

STATE OF CONNECTICUT  
GOVERNOR NED LAMONT

To Connecticut's aspiring students,

Now more than ever, the pursuit of education is important to a person's success and plays a vital role in the competitiveness of Connecticut's economy.

The goal of this *Connecticut Higher Education Institutions Almanac* is to help both youth and adults when they are faced with the question, "What next?" Whether someone is considering a two- or four-year degree at one of Connecticut's public or private institutions, a specialized certificate in a certain field, or taking classes at one of the state's more than 90 occupational schools, this *Almanac* provides useful resources on all of the higher education options that Connecticut offers.

We are hopeful that by putting this information in one place and making this resource available free of charge to the public, it will serve as a centralized location for youth and adults who are looking to pursue some form of postsecondary education. Even more so, we hope that when residents see the many educational options they have within Connecticut's borders, they will not only be encouraged to keep learning, but they'll do it right here in the Nutmeg State.

Our administration is well aware of the positive influence education beyond high school can have on Connecticut's youth, its workforce, and the state's overall economy. Committing ourselves as residents to a lifetime of learning opens up opportunities for us all.

Sincerely,

Ned Lamont  
Governor

Susan Bysiewicz  
Lieutenant Governor

Dear Connecticut Student,

Welcome to the world of higher education and career opportunities in Connecticut! Navigating how you should broaden your knowledge and skills once you've earned your high school diploma certainly doesn't fit into a category of "one size fits all." Instead, this important decision is often influenced by any number of personal, family or financial circumstances – if not all of them. Fortunately, despite Connecticut's being one of the smallest states in the U.S., it has ranked very high as having the most educated citizens. And, with more than 130 postsecondary institutions within our borders, including postsecondary occupational schools as well as colleges and universities, prospective students have plenty of options when it comes to determining, "What is next, and more importantly, what is *best* for me?"

We believe that this inaugural *Almanac* contains the very information that most future students seek out when deciding where to continue their education. All Connecticut postsecondary institutions, whether they are public or private, four-year or two-year, academic or occupational, are each profiled within its pages, and information such as student demographics, graduation rates, tuition costs, and popular areas of study are just a sampling of the information that is included for each institution. We also hope that by offering the *Almanac* in both electronic and paper versions, *all* prospective students will utilize its information.

Taking into account job placement, salary levels, and other important factors, Connecticut has been mentioned as offering the most opportunities for college students and recent graduates. Home to Fortune 500 companies and pioneer start-ups, great public schools, vibrant cities, scenic suburbs, a low crime rate, and a location within easy proximity to one third of the entire U.S. economy and two thirds of the Canadian market, Connecticut continues to be a great place to learn and earn.

Sincerely,

Timothy Larson, Executive Director  
Connecticut Office of Higher Education

## DEVELOPING A STRATEGIC MASTER PLAN FOR HIGHER EDUCATION IN CONNECTICUT

A Strategic Master Plan will provide an overall framework for higher education in Connecticut. Connecticut's diverse network of public and private colleges and universities offers an exceptional resource for providing educational opportunities for the state's citizens, developing knowledge and skills of the workforce, and contributing to the future economic competitiveness and quality of life within our state. It is vital that we develop a policy environment that engages Connecticut's exceptional higher education capacity while addressing the state's major education, social, and economic challenges.

### VISION

Connecticut cultivates a globally competitive, regionally engaged higher education system that is focused on achieving a number of outlined goals in the following categories:

**1**

#### EDUCATION ATTAINMENT

Increase education levels of the adult population of the state.

#### COMPETITIVENESS

Increase higher education's contributions to a globally competitive economy and workforce as well as the sustainability of Connecticut's regions and communities.

**2****3**

#### AFFORDABILITY

Ensure that higher education is affordable for Connecticut residents.

To learn more about the Strategic Master Plan, please contact Sean Seepersad, Ph.D., Academic Affairs Division Director, at [sean.seepersad@ct.gov](mailto:sean.seepersad@ct.gov).

## State Authorization Reciprocity Agreement (SARA)

### OVERVIEW

Connecticut has been accepted as a participant in the State Authorization Reciprocity Agreement, or SARA. SARA allows institutions offering distance education outside of their home state to enroll students under uniform procedures. SARA is managed via regional boards and a national council. For more information visit [www.nc-sara.org](http://www.nc-sara.org).

### SARA INSTITUTIONS IN CONNECTICUT

- Albertus Magnus College
- Central Connecticut State University
- Charter Oak State College
- Eastern Connecticut State University
- Fairfield University
- Goodwin University
- Hartford Seminary
- Holy Apostles College and Seminary
- Housatonic Community College
- Post University
- Quinnipiac University
- Sacred Heart University
- Southern Connecticut State University
- Three Rivers Community College
- University of Bridgeport
- University of Connecticut
- University of Hartford
- University of New Haven
- University of Saint Joseph
- Western Connecticut State University
- Yale University

### APPLICATION PROCESS FOR INSTITUTIONS

Participation in SARA is voluntary. Degree-granting institutions that are located and authorized to operate in Connecticut and are accredited by an entity recognized by the United States Department of Education may apply to the Office of Higher Education for approval to join. Approved Connecticut institutions are able to enroll students from other SARA states without having to seek approval from those states.

The institutional application must be completed and submitted to the Office of Higher Education along with the appropriate fee. A separate fee must also be remitted directly to the National Council for State Authorization Reciprocity Agreements. The state fee for Connecticut institutions of higher education shall be calculated based upon the institution's full-time equivalent enrollment:

Less than 2,000 students	\$3,000
2,000 to 9,999 students	\$6,000
10,000 students or more	\$9,000

### CONTACT

All correspondence, including institutional applications and student complaints, should be sent via email or post to: [ohc.ctsara@ct.gov](mailto:ohc.ctsara@ct.gov)

### How Postsecondary Career School Authorization Works in Connecticut

The Office of Higher Education provides consumer protection for students and potential students at private occupational schools, hospital-based schools and barber/hairdresser schools in Connecticut. Schools which meet statutory requirements are authorized to operate in Connecticut by the Executive Director of the Office of Higher Education.

#### Conditions of Authorization

Authorization means that the Office of Higher Education (as amended by Public Act 11-48) has determined that schools have met the following criteria, pursuant to Section 10a-22b(c) of the Connecticut General Statutes:

The quality of and content of each course or program of instruction, training, or study noted on the certificate of authorization reasonably and adequately achieves the stated objectives for which it is offered;

Students and other interested persons are provided with a catalog describing the courses and programs offered, course and program objectives, length of courses and programs, schedule of tuition, fees, and all other charges and expenses necessary for completion of the course or program, and as well as school policies regarding attendance, grading, graduation, job placement, an explanation of cancellation, and refund policies;

The school has adequate space, equipment, instructional materials, and personnel for the instructions offered; The qualifications of directors, administrators, supervisors, and instructors reasonably and adequately assure that the students receive education consistent with the stated objectives for which a course or program is offered;

Upon satisfactory completion of the courses or program, each student is provided with appropriate educational credentials by the school (certificate or diploma);

Adequate records are maintained by the school to show attendance and grades, or other indicators of student progress, and standards are enforced relating to attendance and student performance;

The school is financially sound and capable of fulfilling its commitments to students based on a review of audited financial statements that are filed annually;

If applicable, any student housing owned, leased, rented, or otherwise maintained by the school is safe and adequate.

Additionally, as a condition of authorization, schools must make all payments required by law, including payments of all fees to the Private Occupational School Student Protection Account.

Schools must also notify the Office of Higher Education sixty days before any intended revisions of the conditions of authorization, including but not limited to changes in courses and programs; ownership of the school; name of the school; location of the school and any other school related facilities; and changes in tuition rates and fees.

*Holberton offers the option to elect deferred tuition (income sharing) upon graduation with no upfront cost to the student. Alternatively, students may elect to pay up front on a payment schedule which aligns with a trimester schedule. Please note that our deferred tuition model is currently only available to students who are U.S. citizens, U.S. permanent residents, or have a U.S. non-immigrant work visa. Students pay up to \$85,000, the maximum tuition amount.
